EXPERIENCE

Frontend Developer

AUGUST 2019 - PRESENT

BetBull

- Developed online gambling web application and admin panel application for BetBull and Wynn Sports.
- Used React for all applications and Node.js as a backend proxy api.
- Implemented/Experienced best practices for React, SSR, GraphQL, State management and general web application structure to cover all use-cases.

Software Development Specialist

MARCH 2019 - AUGUST 2019

Etiya Information Technology

- Worked as a frontend developer in a large scale team to develop a telecommunication product that is used in Canada.
- Participated in two projects; An end-user project for mobile/internet customers and CSR toolbox project was used by customer support.
- Used Angular 6 for both projects with technologies/practices like state management, atomic design and monorepos.

Software Development Specialist

SEPTEMBER 2017 - MARCH 2019

Rasyotek Human Resources and Information Technology Inc. - Istanbul, Turkey

- In the software development team I am responsible for developing new features and improving existing features from backend to frontend. In addition, I am the main developer of a recruitment product that used to find new employees.
- As a tech stack .NET Core, ASP.Net MVC and MSSQL for backend and JS/HTML5 for frontend is used.

Software Developer Intern

JANUARY 2016 - MAY 2017

Matchback Systems - Green Bay, WI

- During my internship I was involved in two database projects; a customer database project to merge customer information from different databases and store them in an optimized database and as second an automation project of monthly analysis reports of companies.
- I used MS Excel and VB.Net on both projects to provide our needs by following my supervisor's directives.

Technical Support - Intern

JANUARY 2014- MAY 2015

ETIBOR - Balikesir, Turkey

- Worked as an IT Assistant in Human Resources Department.
- Provided software and hardware support to employees.
