EXPERIENCE

Software Development Specialist   MARCH 2019 - PRESENT
Etiya Information Technology

- Etiya is the leading Independent Software Vendor providing comprehensive Customer Relationship Management (CRM), Catalog and Algorithm-Driven B/OSS, as well as Customer and Social Media Analytics to Communications and Digital Service Providers.
- I work as a frontend developer in a large scale team to develop a telecommunication product that is used in Canada. In that project my main responsibility is developing new frontend features and maintaining/improving existing ones.
- In our team we use Java/Spring and PostgreSQL on backend, Angular on frontend and for version controlling we use Git.

Software Development Specialist   SEPTEMBER 2017 - MARCH 2019
Rasyotek Human Resources and Information Technology Inc. - Istanbul, Turkey

- Rasyotek Human Resources offers business solutions for government incentives, payroll services and reporting to most known companies of Turkey.

- In software development team I am responsible for developing new features and improve existing features from backend to frontend. In addition, I am team leader of a recruitment project that used by various companies to find new employees.
- As a tech stack we use ASP.Net MVC/.NET Core and SQL Server for backend and JS/HTML5 for frontend. Various projects communicating via RESTful APIs.

Software Developer Intern   JANUARY 2016 - MAY 2017
Matchback Systems - Green Bay, WI

- MatchBack Systems is a SaaS provider that aims to reduce costs of shipping and improve efficiency for logistic companies.
- During my internship I involved in two database projects; a customer database project to merge customer infos from different databases and store them in an optimized database and as second an automation project of monthly analysis reports of companies.
- I used MS Excel and VB.Net on both projects to provide our needs by following my supervisor's directives.

Technical Support - Intern   JANUARY 2014- MAY 2015
ETIBOR - Balikesir, Turkey

- ETIBOR is Turkey's largest chemical producer and exporter company.
- Worked as a IT Assistant in Human Resources Department.
- Provided software and hardware support to employees.
